THE FINEST IN KITCHEN AND
COOKING UTENSILS

TO THE STUDENTS OF

NORTH SHORE COUNTRY DAY SCHOOL

As young men and women who are particularly blessed with a fine education, you are privileged to think long and hard about your future livelihood and to prepare yourselves well. Most people don't have a chance. They just have to go to work.

But, since you do have the chance to decide and to chart your course according to your interests, make the most of it. Think about this rich and wonderful country of ours and then try to enrich it still more with your work. Think about the 15 million increase in population we will have by 1960, about the cities we live in now and their dire lack of planning, about the 10 million homes which exist today which are dilapidated or without plumbing.

Yes, do think about all these realistic facts and see how you may lend a constructive hand to improve them. Real estate in the Draper and Kramer tradition is one way—and to our way of thinking, a rewarding livelihood.

Think about it—now—it's not too early to dream and plan your future.
